

# Reaching In, Reaching Out

An Exploration & Celebration of the School of Living –  
an Evolving Community of People and Land.

The School of Living is a 501(C3) educational nonprofit organization founded in 1934 by Ralph Borsodi to promote sustainable living and the development of self-sufficient, land-centered communities. Borsodi's vision lives on today through the work of the SoL board, its members, and the seven land trust communities that make up the School of Living Regional Community Land Trust.

Come join us for a weekend of reflection, visioning, and fun at our strategic planning retreat this July. Your presence will help strengthen our connections, clarify our mission and make plans for growing our vision.

July 10 – 12, 2009      Julian Woods Community  
Julian Woods, PA
